Theme

Music—the most beautiful of all sounds—is that force which, loved by most men, accompanies all men throughout their lives. It is the lullaby, the wedding march, and taps.

Music has many meanings for many men. It is a power great enough to surmount all barriers of intellect or culture, so that it may reach all men. It has a different meaning for each man, dictated by his emotions, personality, and imagination. It comforts the sad, and plays with the gay. It calls up visions of the impossible for the dreamer, of the possible for the fighter.

There is one great type of music which is inaudible, but is, nevertheless, strong, rhythmic, and vibrant. That is the music of youth. Since it mirrors youth—impetuous, daring, yet somehow protected from harm—this music varies. And it is this music which we are trying to depict in the AITCHPE 1947. The many faces are the instruments. They play the strong music of the intellectual pursuits, the rhythmic music of the sports, and the vibrant music of the many activities. Then there is the gay music of the prom, the sometimes-sad music of marking-day, the clear music of the student leaders, and the timid music of the freshies. All of these strains taken together shall be the theme of the AITCHPE 1947.

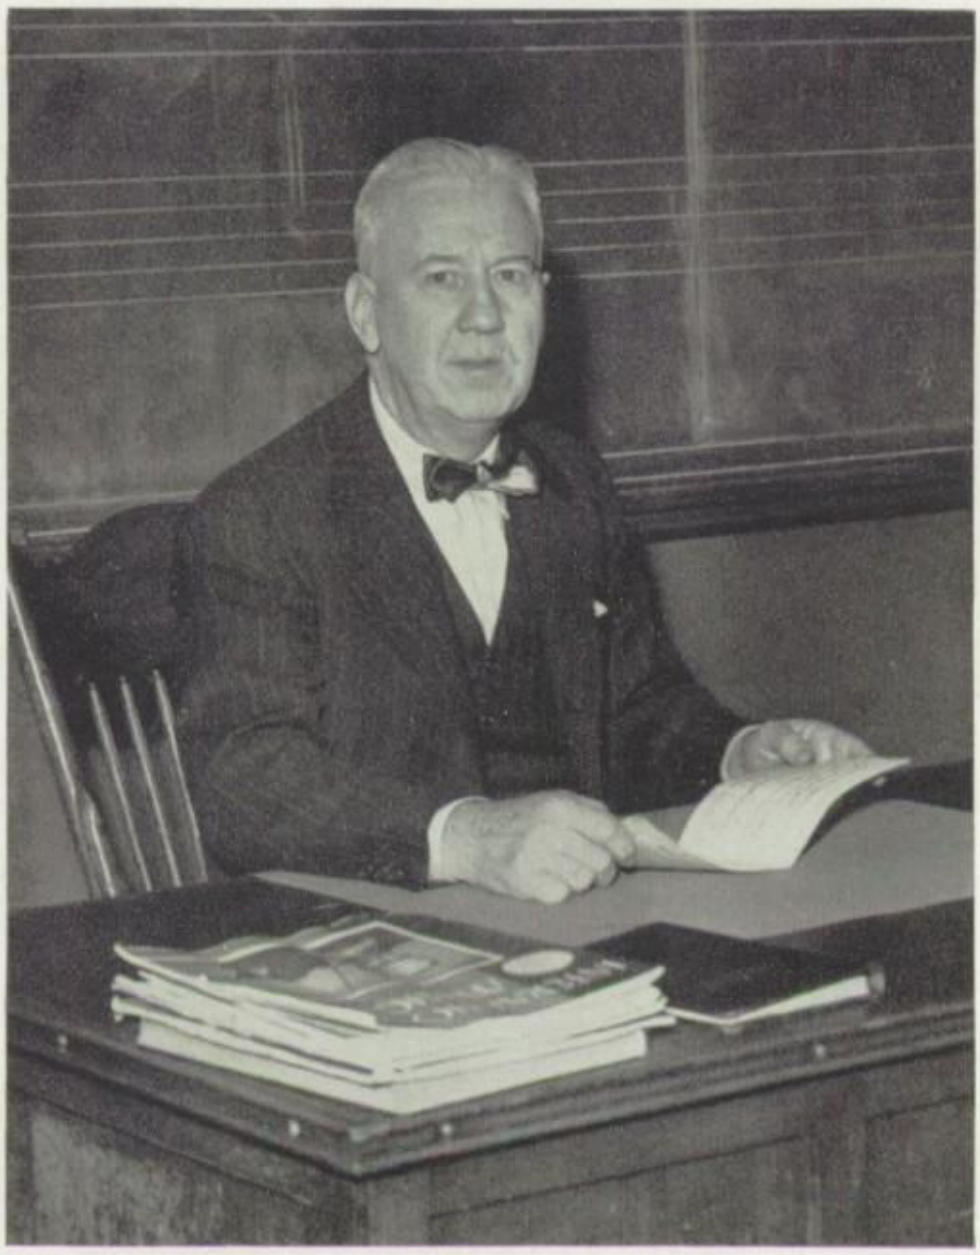
CAPTAIN JOSEPH W. FAGAN



CAPTAIN FAGAN "AT EASE"

The career of Captain John W. Fagan, the leader of "Fagan's Famous Fakers," has never strayed very far from the path of music.

He received his early violin instruction mainly from Charles Martin Loeffler and Jacques Hoffman of Boston. He has toured with opera companies, musical shows—such as "The Birth of a Nation" picture when it had a large orchestra—and with two of the largest and best concert bands of the day—the Innis Band and Liberati's Band, of New York City. In Chicago and other cities he has played first violin in Symphony Orchestras.

Captain Fagan taught instrumental music at the Kemper Military School in Missouri and several other Chicago high schools, before coming to Hyde Park in 1924. Since his arrival, the band has received numerous plaques of first and second places in city competition and several honorable mentions.

Since he is a loyal Hyde Parker, both of his sons, Edgar and Joseph, Jr., their wives, and his daughter Jane graduated from Hyde Park.

It is to this distinguished musician and leader of our band that we respectfully dedicate the AITCHPE 1947.

OUR MAIN ENTRANCE

GORDON TAYLOR

Aitchpe King

The Aitchpe King, a lad from heaven,
Has light brown hair and is five feet seven.
His eyes are brown, his girl's are blue,
If she's a blond, he will be true.
In A Capella he likes to sing.
With his guitar a song he'll bring.
He has no favorite food nor movie star,
But has ambitions, should go far.
A pro-team manager is his aim,
Already basketball has brought him fame.
He came from Hammond to Aitchpe,
Destined here the King to be.

Aitchpe Queen

GLORIA KLOSTER

The sweetest 'gal' in this fine school
Is one o'er whom the fellows duel.
Her dark brown eyes and dark brown hair
Add beauty to our Queen so fair.
Her figure's cute as cute can be,
Such curves and oh such lines, "oui, oui."
In A Capella she did sing,
In drama now she takes a fling.
In many sports she does take part,
And sev'ral men have stol'n her heart.
No one but Gloria could be Queen,
For she's the best we've ever seen.

A DAY IN LATE OCTOBER

Educational Administration

In the spring, "a young man's fancy lightly turns to thoughts of love"; in the fall, to football; and in winter, there are myriads of wondrous things to attract his attention. The difficult job of keeping the noses of Aitchpe's students to the well-known grindstone is taken over by the principal, his assistant, and the other executives in Hyde Park's offices and classrooms.

After working hard to make the fall semester a successful one our own "Papa Joe" Gonnelly retired, leaving in his wake many memories of the grand job he did in directing Aitchpe's activities.

Mr. John R. Specht has been our guiding light the past semester and has proved in many ways how ably he fills the shoes—and they are some size (metaphorically speaking, of course)—of the acting principal. You can pay him a visit in the North Office, Aitchpe's headquarters and receiving room for visitors and minor delinquents.

If you would like to see a replica in miniature of the F.B.I. record room, inquire about entering a college, or check on almost anything going on in school, go into the South Office. Miss Lucy Buckley is the acting assistant principal who heads this office, relieving Mr. Specht of many minor tasks.

Hyde Park's grade advisers are the immediate contacts between the students and the executives. They'll manipulate your program for you (for better or worse), help you if you get into any trouble, and watch your attendance in sickness and health—particularly the latter.

Last—but by no means least—are our teachers. You know what fine teachers and good friends they are. Just let us say that they teach you the three R's and more, spicing the lessons with their own personalities—whether sugar or pepper—and thus making them more interesting.

When you add up all of these wonderful people, you can easily see that we have a mighty fine "gang" to run a really grand old school.

Mr. Gonnelly at work

January 31, 1946, was a sad day for Hyde Park. On that day Mr. Joseph F. Gonnelly retired as principal of Hyde Park.

For thirteen years Mr. Gonnelly had been a familiar and beloved figure in the halls of Hyde Park. To the student's eyes, he had really been there in a dual capacity. One was that of Mr. Gonnelly, the dignified, white-haired principal and efficient administrator of Hyde Park, who always saw to it that his school was among the best in the country. The other was that of "Papa Joe", the kindly gentleman who was never too busy to listen to the tale of woes of some bewildered student or distraught parent. In both capacities, he was beloved and respected by the students and faculty of Hyde Park.

Sorry as Hyde Park was to see Mr. Gonnelly go, it realizes that Mr. Gonnelly well deserves some leisure. He is now spending most of his time trying to catch up on all the reading he missed while he was busy at Hyde Park; in the summer he intends to raise a little garden by his house in Indiana.

Although Mr. Gonnelly has officially withdrawn from Hyde Park, his interests are still with his school. He remembers all his old Hyde Park friends with pleasure, coming back to visit them occasionally; and he attends many Hyde Park games.

And Hyde Park will always remember Mr. Gonnelly.

Study of a reading report

JOHN R. SPECHT

Acting Principal

MR. SPECHT

Upon the retirement of Mr. Joseph F. Gonnelly as principal, Mr. John R. Specht became the acting principal of Hyde Park. In moving from the South to the North Office, he has undertaken a hard task—that of following in the footsteps of Mr. Gonnelly; and he is succeeding admirably.

Mr. Specht is by no means a new man in the educational field. He has been in the Chicago public school system for eighteen years, and the assistant principal of Hyde Park since February, 1941.

Now, having assumed his new post of acting principal, he is faced with a multitude of new duties.

Running a school as large as Hyde Park is no easy task. There are a myriad of details to be attended to, ranging all the way from meeting parents and settling the twisted affairs of students to making out reports for the Board of Education.

As acting principal, Mr. Specht is the director of the faculty, the head of the business department, the director of all school affairs, and a sort of "father confessor" to the faculty and to the students.

"The great John R." is a mighty popular and a mighty busy man at Hyde Park.

MISS BUCKLEY

Miss Lucy Buckley became the acting assistant principal of Hyde Park upon the retirement of Mr. Gonnelly.

Miss Buckley now has Mr. Specht's former job in the South Office. From this base of operations she moves in when the situation has become beyond hope. If you have cut classes or failed geometry once too often—Miss Buckley will meet your parents. She takes care of all referrals—that is, cases referred to her from the grade advisers. She also has to take care of all—ouch—discipline cases.

Formerly Miss Buckley was—and probably will be again—the adjustment teacher at Hyde Park. Being adjustment teacher is a very interesting job, and one Miss Buckley likes very much. As adjustment teacher, it was her job to test pupils. Then she had to interpret the scores of the tests, and to counsel the pupils according to the outcome of the tests. She had to meet and interview pupils and parents, to recommend the subjects to be taken, and to make all necessary adjustments.

Whether she is the adjustment teacher or the acting assistant principal of Hyde Park, Miss Buckley is a very busy woman who loves her work.

MATHEMATICS

Numbers surround you constantly in your everyday life. When you look at your clock in the morning, the numbers on its dial inform you that it is time to get up. When you face the street-car conductor, you have to be able to count out four cents. Then there is the great difference between seventy-five and one hundred—a difference which is magnified when these numbers are found on your test papers. In going to the store, it is always an asset to you to be able to count the change. Always during your life, the ability to handle numbers will help you to make a living, and to protect yourself from crooks.

Aside from having many practical applications, mathematics, which is based on logic, is a very interesting science. A study of mathematics can help you to think in that straight line which is "the shortest distance between two points." The ability to think straight will come in handy many times during your life—it will protect you from the false logic of demagogues, and it will enable you to face a situation, think it through rationally, and act accordingly.

These are only a few reasons for the importance of the study of mathematics—an importance fully recognized by the fine math teachers of Hyde Park.

SCIENCE

Have you noticed the odor of spoiled cabbage wafting through the halls? Well, it was probably sulphur dioxide, or something similarly odoriferous. Does your chicken dinner taste different lately? That is probably because you have been dissecting grasshoppers.

Hyde Park's science courses offer you many opportunities to experiment—and to learn. General science is a course designed to give you a superficial knowledge of the most important of the natural sciences. Botany deals with plants, zoology deals with animals, and biology is a mixture of zoology and botany. If you like to mix things just to see what will happen, then take chemistry and go to it—only don't let anyone catch you. Physics is the subject for those of you who are good at mathematics, like logic, or just wonder why the doors all stick in summer.

Now is the time to find out about the miracles going on around us daily—and perhaps, in the process, to prepare for a good career in science.

LANGUAGES

Je vous aime! Ego amo te! Ich liebe Dich! Yo te amo! See all the possibilities in the four languages Hyde Park offers?

If you enjoy conjugating, declining, and getting a firm basis for your English grammar, then Latin is just "your meat." You can learn all about the campaigns of Julius Caesar, and about the struggles of Aeneas and his Trojans.

If you wish to woo a mademoiselle or senorita, then you should study French or Spanish. French is a very beautiful language, flowing, but with brightness. Spanish is gay; and when you visit our good neighbors to the South, it will come in handy.

Do you intend to study any science, especially medicine? Do you wish to study Goethe's *Faust* in the original? Or you wish to know what knockwurst really means? Then you should study German.

No matter what language you study, you will gain a knowledge, not only of the language, but also of the customs and history of the people whose native tongue it is.

ENGLISH

Noun—verb—metaphor—inverted order, over and over, for three years. Boring? Not at all; especially when mixed with short stories, essays, magazine articles, "Julius Caesar," or "Hamlet." Of course, you know all there is to know about iambic pentameter, figures of speech, and so on; but there are always those inevitable words, "We shall review." And, strangely enough, you have never heard of the subject being "reviewed"!

All your years of studying will be rewarded, however, when you are able to read, write, and speak the correct English which is the sign of a cultured person.

SOCIAL STUDIES

The social sciences are fascinating to study, for they tell us of many things: of great men who make their times; of wars which shake their times; of changes, good and bad. The most interesting thing of all is that, though times and events may superficially differ, the underlying causes are always the same.

All of the subjects taught—such as civics and medieval history—are alike in some respects; all are different in others; and all are exciting.

Shop talk

HOME ECONOMICS AND SHOP

Home economics and shop are subjects which are very useful to every girl or boy.

Our well-equipped home economics department is divided into two main divisions: cooking and sewing. Hyde Park ought to turn out many good housewives because of the guidance given in both of these courses.

The shop courses—industrial arts, print shop, wood shop, model making, pattern making—give the boys a chance to work with their hands and to prepare for a vocation.

COMMERCIAL STUDIES

Clickety-clack-clack. No, it is not the Lone Ranger. It is a typing class at Hyde Park. And what have we here? Have all the students become insane? They are staring striaght ahead at a chart on the wall and talking to themselves. Ah, comes the dawn—they are looking at a chart of the typewriter keyboard, and they are repeating the letters on that chart to themselves, thus learning the positions of the letters on the typewriter. None of that "Columbus system" for them. You know how that goes, don't you? Explore and discover.

What is going on in this school? Look at the hieroglyphics on the wall—they look like chicken scratches. This is one of the shorthand classes. Take your pick of the secretaries early. They are going fast.

Would you like to be a Fuller Brush man? have a forceful personality? Then selling and advertising are just the subjects for you. After you have finished this course, you will be able to knock on any door, push your foot into the opening, and sell any old thing with a vibrant personality, poise, and a smile. Of course you may encounter some over-worked and disgruntled housewife . . . All kidding aside, selling and advertising are excellent courses.

Other commercial studies offered are commercial law and commercial geography.

All of the commercial subjects will be a great help to you, whether you go into business or not. You can always use shorthand and typing—in college and on many other occasions all during your life. Many students leave Hyde Park and immediately go to work. Others go on to business college. But all students agree that the training they received at Hyde Park was really "super."

PHYSICAL EDUCATION

One, two, one, two—up, down, up, down. You are right—that is the gym class. Besides exercising, everybody gets a chance to get excited about a close score in basketball, baseball, football, and volleyball. Then there are the swimming classes, and those in health. Physical education is essential for the healthy bodies—the only bodies—which hold healthy minds.

LIBRARY

We are lucky indeed to have such a large library and such an excellent staff of librarians. When the freshie first enters Hyde Park, he quickly becomes acquainted with the library's many books and magazines. And he goes on using these facilities until he is a senior. The librarians are always there in case of trouble—to help find a book, to find a reference, or to answer questions.

MUSIC AND ART

Two of the courses offered at Hyde Park are designed to give some of that polish which combines with the three R's to make culture.

One of these courses is music. It is clearly understood, of course, that some people can't carry a tune "in a basket." But everyone can gain a knowledge and understanding of music.

Some of the teaching is done by means of records. This is a painless means of teaching the elements of music, the sounds and uses of the various instruments—and the necessity of the inevitable scales. The students also put the theory of music into practice by singing many popular and semi-classical songs.

Besides teaching and learning a lot of music in the classrooms, the teachers and students of the music department are also very active in most of the performances given at Hyde Park. Various choruses and orchestras participate in many assemblies, give performances for the P.T.A., and are important parts of many shows. The climax of the music department's activities is reached in the Music Festival, in which the whole music department unites to present a brilliant show.

In the art department, also, one is reconciled to the fact that budding Rembrandts are rare. There are many phases to the art program—making masks, drawing plans for a future home, creating stage sets—or just painting plain pictures. But among all these activities, everyone is bound to find something that is to his liking. And there's method in the madness—for by coming into constant contact with all the phases of art, the student is bound to learn to like and appreciate it.

The art department, too, has many projects, and it turns out many prize-winning posters.

For a good knowledge and appreciation of art and music, you will value and enjoy these two courses.

8:13. The bell rings at 8:15. Will the streetcars ever be on time? Of course, the fact that you got up at eight o'clock has nothing to do with the situation. What was Mom trying to say to you just before you left the house?

Thoughts of this general nature go spinning around in your sleepy brain as you skid into school. Crash—bang—there goes a freshie! You pull him up before he has had a chance to really sit down. On you run, pausing briefly to salaam before Gregory Peck or whistle at Betty Grable, as exposed on an open locker door, depending on your natural inclinations.

About fifteen feet from your locker, a faint, but unmistakable odor reaches your nose. Of course—Monday—your lockermate's day for salami. So you grind to a stop before your locker, drop your books, and start to work on your lock, which is guaranteed to open at the slightest touch, unless you are in a hurry. After three tries, it grudgingly opens. Looking for a drawing, which you had propped up on two hangers to dry, some sadist slaps you-guess-where? The drawing is found, squashed beneath three textbooks, at five pounds each. Quickly you grab four books—three of them later turn out to belong to someone else—and dash on.

Flying down the "up" stairs, the "daring young man on the flying trapeze" is a Milquetoast compared to you. You quickly jump over the distance usually covered by nine steps, and rear up before the classroom door. The bell rings.

As you try to jerk open the door, you notice it is locked. The classroom is dark. Perspiring and winded, you sit on the conveniently located floor to think this out. Monday—first period—Mother's attempted words. Aha!

Chemistry: second period daily, first period on Tuesday and Thursday.

It is moments like these that season the tranquil four years, filled with learning, sports, and fun, which make up your happy high school career.

FEBRUARY 1948 CLASS OFFICERS IN THE 4B SEMESTER

FRANCINE ATTSCHULER . . . . . *President*
JUDY BRANSON . . . . . *Vice-President*
GLORIA MORRIS . . . . . *Commissioner*

MID-YEAR SENIORS

The seniors are the most envied group of students in high school—the adults envy them because they are still in school, and the freshmen because they are practically out of it. The happy graduating class of January 1948, is now chiefly concerned with having the best graduation Hyde Park has seen.

It has chosen an active group of officers for the spring semester: Fran Attschuler, president; Judy Branson, vice-president; Pat Kramer, secretary; and Gloria Morris, commissioner. Neither the fall officers, nor the committees, have been selected in time for publication.

Fran and her student government job.

Activities

If you are not too tired to go sight-seeing after your normal school day is done, then come with me and take a look behind the scenes to see some of the activities that provide so much fun and instruction for Hyde Parkers. No matter where your interest lies, you will see your fellow students enjoying an activity in that line.

For those who show signs of being an Einstein, j.g., there is Sigma Epsilon, Pythagoreans, Euclideans, Junior and Senior English Honor, Botany Club, or Conservation Club. For the uninitiated, it should be explained that these are all honor clubs. But don't let that word "honor" scare you—you do not have to have an I. Q. of 200 in order to join.

Our budding "Dinahs" and "Frankies" may join Girls Chorus—boys, keep out!—, Male Chorus—girls, please don't try to sneak in with a pair of slacks!—, and A Cappella. For the budding Arturo Toscanini or Yehudi Menuhin we have the Orchestra and Junior and Senior Bands. Future stage and screen stars may practise on their suffering fellow students by joining Blue Mask or the Radio Guild.

If you have a lot of brain, brawn, and time, you can help to put out a good publication like the AITCHPE or "The Weekly."

Student Government and Boosters help to develop an interest in government, and work to further the interests of the school.

For you mechanically inclined boys, there are three marvelous organizations which give you excellent chances to tinker. The Film Service Club members show the films and slides that we all like so well; the Stage Force helps with all activities taking place in Loomis Hall; the North Office Printers put out the daily bulletin and do special work for the teachers.

Where enterprising students roam, there are many more activities than those which we have just mentioned. So, turn the pages, look around, find the club that meets your taste—and then join it pronto!

SIGMA EPSILON

The graduating class of June 1947 contains 182 Sigmas—but not even that class wonderful as it is, has the audacity to suggest that it contains 182 geniuses. So don't think that any student who manages to receive no grade lower than G and to maintain an average of E in his majors is a 'genius'. He does, however, usually possess the qualities which make a successful student, or a successful person anywhere, namely: industry, dependability, and initiative.

Look at a list of South Office helpers, of hall guards, of Junior English Tutors, or even of AITCHPE workers—most of them are Sigmas. By being a Sigma, that is, by showing that he has the traits of industry, dependability, and initiative, a student becomes eligible for many activities which help the school, teach the participants, and are loads of fun to boot.

Sigma Epsilon is to Hyde Park what Phi Beta Kappa is to a university. Sigma is the oldest scholastic honor society in any Chicago high school. It was founded in 1919 by Miss Agnes Stuart, a Latin teacher and the first dean of girls at Hyde Park. After Miss Stuart left, Miss Beulah Shoesmith took over Sigma, and led it successfully for many years. Now Miss Majel Kurrie is heading it for the second year and doing a wonderful job.

The membership of Sigma has grown by leaps and bounds throughout the years. In 1919, there were 85 pioneer Sigmas; in 1922, there were 225; and in the spring semester of

1947, membership is a record 407.

During the fall semester of 1946, Myron Hoffman was the president of Sigma; Hortense Kleitman was the vice-president; Esther Kleitman was the secretary; and Irmgart Miller was the treasurer. The officers of Sigma during the spring semester of 1947 are Myron Hoffman, president; Esther Kleitman, vice-president; Jerome Weiland, secretary; and Jean Shaw, treasurer.

Sigma has had an interesting term in the school-year 1946-47, filled with many parties, lots of fun, and much hard work.

Let's look at some of the parties and fun first. On October 3, there was a party featuring the talents of Miss Whelen and of Mrs.

Brandenburg. Miss Whelen, amidst general laughter, acted out the story of her trip to the Grand Canyon; and Mrs. Brandenburg read the hand-writing of any soul hardy enough to dare an analysis of his character. On December 5, there was a great Christmas party, with two films: "Arts and Crafts in Mexico," and a Walt Disney feature, "Arctic Antics." March 26 saw a party during which Miss Clawson recited poems, and Werner Frank won a ballpoint pen for winning a guessing game. There were other parties on April 10, May 5, and June 5. Of course, all of these parties offered cokes and cakes to the ravenous Sigmas.

In the schoolyear 1946-7, sixty-four students applied for scholarships. So far, two of them have been lucky enough to win—Ruth Perman won a half-year scholarship to Roosevelt College, and Edward Rosen won a year's scholarship to the Illinois Institute of Technology

In the class of January 1947, there were thirty-three four-year Sigmas. On the morning of graduation day, these lucky thirty-three received their permanent pins in a very beautiful ceremony.

The pins, by the way, cost Sigma $19.76. In June 1946, the pins for the four-year Sigmas cost $58.68. Now you Sigmas know where your membership dues land!

The following section will show you some of the activities in which the Sigmas participate.

One of the popular honor activities is Senior English Honor.

Do you enjoy pouring over rare manuscripts, reading old literary works, or discussing the rise of the drama? Many Hyde Parkers do, as is shown by the large membership of Mrs. Louise Kirby's Senior English Honor. This club, which meets daily, has a fine time reading, discussing, and creating.

Row 2—B. Clayton, J. Teplitz, E. Birmingham, S. Rothnagel, J. Stuckey.

JUNIOR ENGLISH TUTORS

What is an indirect object? What are the functions of a noun clause? What did Julius Caesar mean when he said "Et tu, Brute"? These are only some of the questions that the Junior English Tutors answer as they help bewildered freshmen and sophomores.

The Tutors are ready and willing to help anyone who needs assistance in his English studies. They are a great help to both students and teachers: they help students who have gotten behind in their work because of illness or because they do not understand some point of the work, and they relieve the teachers of much extra work.

Junior English Tutors are under the supervision of Miss Myra Paine.

JUNIOR ENGLISH HONOR

Curtain going up—on a Junior English Honor production.

These juniors, interested in classic drama, meet first period on each morning with Miss Myra Paine. They present plays by such dramatists as Shakespeare and Moliere for their own enjoyment, as shows for other Hyde Parkers, and as programs for assemblies. In the spring semester, for example, they presented a highly successful production of "The Taming of the Shrew", starring Joanne Eggleston.

Besides taking part in a very interesting activity, the members of Junior English Honor develop poise, stage presence, and diction and learn the principles of fine acting.

PYTHAGOREANS

Row 1—R. Fine, F. Melchoir, M. Lowengard, Mrs. Shull, C. Golden, W. Frank, J. Weiland.
Row 2—B. Larson, H. Levin, P. Rendone, C. Gentzel, M. Hoffman, T. Guinsatao, I. Sarnat, M. Ford, B. Small, L. Tautenberg, J. Greenebaum, E. Liffmann.

PYTHAGOREANS

All right, genius, wake up now—sharpen your pencil and your wits. You, too, may be a winner of the Wilson Math Contest, if you have had three years of math, with an E plus average, a dash of genius, and enough obstinacy to stick to a problem till it is solved—a process which may take two seconds or two weeks. Mrs. Shull will grind up plenty of calculus, analytical geometry, and liberal doses of "review" for you to digest. Do you take to this sort of diet? Try Pythags and find out.

EUCLIDEANS

And so to bed, you junior math wizards, to blissful dreams— No! Have a few nightmares, courtesy of Miss Von Horn. There will be cube roots, navigation, and numerous other dainty morsels doing a Virginia reel in your head. There will be that problem that was so easy for everybody except you, the one that was hard for everyone, and parts of that movie on celestial navigation. But you will have lots of the company that misery loves, plus reams of fun, if you join your friends in Euclideans.

EUCLIDEANS

Row 3—J. Giller, S. Horowitz, L. Handler, N. Quiriconi, P. Dubert, L. Saltsider, J. Simmons, M. Ebstein, M. Gruen, N. Perlow, J. Dornan.

ZOOLOGY CLUB

Bees, bats, bass, baboons—yes, all these and many other members of the animal kingdom might be topics for discussion at a meeting of the Zoology Club. Under the capable direction of Mr. Shideler, the eager zoologists use many methods of studying animals, their habits, and habitats. Besides participating in lively discussions, the club members listen to reports, prepared by fellow members, on various subjects of interest. They also go on field trips—and have a great time.

CONSERVATION CLUB

Hear ye! Hear ye! Attention all Hyde Parkers interested in preserving and protecting the flora and fauna of this region! The members of the Conservation Club, which meets during ninth and tenth periods every other Friday under the leadership of Mrs. Margaret Hawkes, will be glad to have you join their ranks. Our green-thumbed junior Burbanks enjoy lectures, botanical brainbusters, and discussions at their meetings. Field trips are also an important item on the agenda.

A CAPPELLA

Was your last-minute cramming for some very important final ever interrupted by the strains of "Little Town of Bethlehem"? Were you ever concentrating on the good and bad qualities of hydrogen when "Home on the Range" intruded? You tried hard (?) to stick to facts—but melody won out.

The chances are that you were hearing the A Cappella chorus. This club consists of senior and junior boys and girls, all of them capable of carrying a tune, some of them taking private singing lessons. And they all love to sing.

A CAPPELLA 2

Row 1—E. Morris, J. Liedel, B. Marks, B. Lewison, Miss Lee, R. Karras, L. Zabrin, B. Snapp, B. Wells. *Row 2*—A. Leib, J. Larmoth, S. Pollyea, M. Moon, M. Liningstone, G. Pursian, E. Nadson, C. Borja, J. Hardy, K. Carey, P. Butts, C. Canezaro.

A Cappella sings for many assemblies, the Music Festival, and various other occasions. It always sings the kind of semi-classical tunes which everybody whistles.

The chorus, clad in blue gowns, always stands in the balcony of Loomis Hall, and sings with the beautiful tone and precision which is largely the handiwork of Miss Lee. Then you wish you could join them—and there is no reason why you can't.

MUSIC HONOR

No, you do not have to be a minor Beethoven to join Music Honor.

Music Honor is a club composed of musically talented students—or perhaps just those who like to sing or play an instrument.

Miss Lee is the sponsor of Music Honor—a job which certainly keeps her busy. She aids the students with their music assignments and trains them in solo work.

MALE CHORUS

Are you a boy? Do you like to sing in the shower? Would you like to join a chorus in which the sopranos do not drown out everybody? Then this is the club for you.

Under the capable direction of Miss Stefanik, a lot of hoarse bassos and squealing sopranos (male, aged thirteen) are moulded into a good and popular chorus. The Male Chorus sings at assemblies and on other occasions.

Row 1—R. Morrison, H. Izunno, H. Lofgren, Treas., D. Robinson, Pres., Miss Stefanik, W. Holmberg, V. Pres., L. Beamer, Sec'y, S. Gold, J. Mall. *Row 2*—J. Kay, A. Lyons, D. Resnick, H. Klein, D. ORCHESTRA

Everybody likes to listen to an orchestra, and everybody who plays an instrument likes to have the experience of playing in one. Hyde Park offers many opportunities to satisfy both urges. For the budding musicians, there is an elementary instruments class; for the average musicians, there is the Junior Orchestra; for the more advanced musicians, we have the Senior Orchestra; and all of us can listen. The senior group, heard on many occasions and directed by Miss Finley, has won many distinctions.

BAND

"Squeak!??

"Crash!"

"No-o-o, this is supposed to be in 4-4 time, not whatever that may be!"

Hearing such noises during rehearsal, one might think these independent musicians would never get together and play as one band. But they do, under the capable baton of Capt. Fagan, as is testified by the awards and trophies the band has won, among them an "E" rating in the city contest.

AITCHPE

Did you know that there is a publishing business going on at Hyde Park? And that its product is right under your nose at the moment? You don't believe us? Well, we'll prove it.

Like all publishers, we have an office—Room 328—in which we can all put our feet on desks, chew gum, read old copies of "Esquire," and occasionally work.

We have two big bosses, Miss Leitch and the editor-in-chief. When the editor-in-chief doesn't know what to do, he runs to Miss Leitch—so you can see who does most of the work.

Then there is a group of minor bosses, each of whom is in charge of one department, known as the Aitchpe major staff. The members of this group are all individualists, who want more space for their sections, disregard deadlines, and are general nuisances. The minor staff is a group of students who do most of the work, take most of the blame, and have to say "yes" all the time. Being a member

of the minor staff is like spending a year in purgatory, after which most of the "minors" are allowed to live the life of "major staffers."

There is also a department which collects all the dough, gets ads, and keeps the Annual from going into the red. It is headed by Mr. Zehner. The art department is under the supervision of Mrs. Nichols.

Then there are the pictures. The formal ones were taken by a professional photographer, but the snaps were taken by our own photographer. The copy is the product of sleepless nights, inky fingers, and mainly—Miss Leitch's suggestions. Few people read it, but it looks nice on the pages, doesn't it?

When all the material has been gathered, it is pasted, pulled, and pushed into a "dummy", which is then handed to a printer. We hope you now properly respect all our work, enjoy the AITCHPE, and buy another one next year.

Yes sir! No sir! No excuses, sir!

WEEKLY

"Miss Byrne, there aren't enough stories for the third page!"

"Miss Byrne, the cuts didn't come in, and what are we going to do?"

"Mr. Zehner, the money isn't all in and we can't find any cards!"

These queries, wails, and other strange noises issue from Room 117, where Oscar lives, together with the hard-working (?) reporters and editors of the "Weekly", and sundry people who wander in and out when they have nothing better to do.

But besides tomfoolery, one of Chicago's best high school papers came from Room 117, with most of the credit due to Miss Byrne. The "Weekly" faithfully echoes the opinions of the students, brings much informative and entertaining material, and helps greatly in many worthwhile campaigns.

So, come one, come all—seventy-five cents, a thin three-quarters of a dollar, will get you a semester's subscription to the great "Weekly"!

SENIOR SPONSORS

Senior Sponsors is a group of boys and girls who perform those functions at Hyde Park which, at home, are usually relegated to older brothers and sisters. They serve in the North, South, and attendance offices, and sometimes take charge of classes. Others explain the vicissitudes of high school life to freshies, answering their questions, and helping them during division. The Senior Sponsors, under the direction of Miss Viola Kuehn, is another Hyde Park organization which really serves the school.

STUDENT GOVERNMENT

"A government of the people, by the people, and for the people." Yes, that is a fitting description of the Student Government at Hyde Park. The registration of voters, the elections, the upkeep of all bulletin boards, and many other tasks are managed by this group of class officers and members of the Election Commission, under the leadership of Miss Clawson. They set an example for other Hyde Parkers to follow by living according to the principles of their school and community.

STAGE FORCE

Lights! Curtain! Action! The show must go on—and it certainly could not without the efficient stage force.

The stage force consists of the boys who make sure that the "mikes" are o.k. and that all the props are propped where they should be. They also work the spotlights and the curtains, and generally take care of all the "dirty work" which is a vital part of every glittering performance. Mr. Ausby Hendy is the sponsor.

It is these helpful boys who are largely responsible for the ease and fluidity with which all the performances and assemblies are presented in Loomis Hall.

NORTH OFFICE PRINTERS

Take a group of boys. Attach inky fingers. Add paper, inks, and duplicators. Place in a small room just off the North Office. You then have the North Office Printers.

This group of boys work every day. It turns out the daily bulletin, the program blanks, and the attendance blanks. All of these papers are instruments very important in the efficient running of a great school.

Sometimes the boys turn out "special jobs"—programs for assemblies, work sheets for civics, various lists, and so on.

These boys are very important in the running of Hyde Park—and they save a lot of printer's bills.

FILM SERVICE

Heroine in the clutches of the villain—hero to the rescue. Then—zip! the film disappears from the screen. Flash! a member of the Film Service repairs the damage and the film continues. Of course, the movies usually concern cube root, celestial navigation, or the landing of the Pilgrims; but it is true that the boys are of great service to the school.

BOOSTERS

No!! Boosters do not assist burglars to climb into windows. Members of the club serve the school in many ways, especially in connection with the Red Cross Drive and clean-up campaigns. Their meetings consist of discussions of teen-age life, reports on Red Cross programs, and occasionally—just to break the monotony—there are parties.

SOUTH OFFICE

The proverbial needle in the haystack may be hard to find; but, if there is need to delve into the realms of programs, trait slips, coursebooks, records, and other official school documents, anything can be found readily in the archives of the South Office. Here a large staff of capable workers, headed by Mrs. Griswold, Miss Cummings, Miss Cranby, and Mrs. Lyons, diligently care for the voluminous files.

BOX OFFICE

Combination locks, tickets for school plays, dances, and games—these are just some of the items that the Hyde Park Box Office sells. One of the Box Office's biggest jobs, that of selling student pictures, turns the office into a reasonable facsimile of a photographer's studio for some weeks each year. The Box Office staff, under the direction of Miss Hansen, carries on all business with speed and precision.

LOST AND FOUND

Tried all possible means of finding that red mitten you lost? Couldn't you find that chemistry book behind the radiator in the lunchroom? Well, there is a good chance that those articles, and the pen you lost three semesters ago, might be in the Lost and Found. So that you will have easy hunting, Sgt. Hartman's capable and helpful staff, on duty first through ninth periods, will gladly delve into the realms of unclaimed articles in search of your possessions.

CHESS AND CHECKER CLUB

"Move that black one, and you'll capture his man."

"There! I've captured your queen, and I win!"

To the uninitiated observer, this means nothing; but, to the members of the Chess and Checkers Club, this means another victory. Under the guidance of Mr. Maurice Ottosen, this group labors long hours over various intricate offenses and defenses. Our championship Chess and Checker Club deserves as much recognition as our football team.

VARSITY MOTHERS

"C'mon, let's get out there and win!"

We do not know whether or not this is the way Coach Hasan talks to the Varsity Mothers, but we do know that when this group of women puts its mind to it, it really gets out and does the job.

Varsity Mothers began fourteen years ago when it was discovered that all the equipment of the football team had been stolen during the X-mas vacation. The varsity mothers held a meeting, guaranteed one thousand dollars for uniforms and equipment—and then became Varsity Mothers. These mothers sponsor the annual fathers' and sons' party and a bridge party.

P.T.A.

One of the busiest organizations at Hyde Park is undoubtedly the Parent-Teachers Association. The members of this group willingly give their time to act as hostesses at teas and parties, to work at the candy counter in the lunchroom, and to raise funds for the school. The interesting and entertaining P.T.A. meetings are usually held on the afternoon of the second Thursday of each month, although there is one evening meeting each semester, so that employed parents can attend at some time. The parents of all Hyde Parkers are hereby invited to join this service-minded organization.

LIBRARY AIDS

The library aids are students who work for the library one period every day, in return for a lot of knowledge of the organization of a library, a good time, and one hundred civic points per semester.

The library aids are busy people. They check out books, and then "slip" the books when they are returned. They also hunt you down when your book is overdue. They help to make many of the charts and exhibits which always brighten that library. By carrying the library slips to study-hall teachers, they help in taking attendance. If you are looking in vain for a list of the poets-laureate of England, the library aids will help you find it. (Look in the dictionary; you'd be surprised at all the things in that book!) Then when you have scattered books all around—as you shouldn't, and you know it—the aids will return them to the shelves.

The library, by the way, is now called the Gonnelly Library. And the library aids are an important part of that library.

SENIOR GIRLS

Time is certainly a great and wonderful miracle-worker. From the timid little girl, who hides her natural charms under a baggy sweater, bobby sox, moccasins, and pimples—commonly known as freshies—time makes, in the course of four years crowded with classes, cokes, and dates, a smooth young lady, who is polite, polished, and dressed in the height of fashion (this may not be much better than the baggy sweater)—commonly known as a senior.

There is a wonderful treat in store for the latter—the girl in 4B or 4A. This is the membership in that wonderful organization known as Senior Girls, which serves the school and has fun doing so.

If you were to step into a meeting of this club, you would probably think that you had

stepped into a hen-party. And you wouldn't be so far wrong. The conversation flies thick and fast—all highly important conversation, of course. Up at the desk, trying to bring the general "conversation" down to a college yell is Elsa Magnuson, the Senior Girls' president. Janet Wallyn, the vice-president; Bobby Daniels, the secretary; and Leith Tjernberg, the treasurer, are calmly waiting for silence to reign, so that they can get down to work—for they are really hard workers. After peace has once again descended upon Room 329, you would discover that all the discussion has been about the Freshie Frolic, or some such momentous topic.

After inquiring around a bit—or perhaps they will shout it into your ears—you find out that the group has a membership of 440 girls, 116 4B's and 324 4A's. They meet every Tuesday in Room 329, not all 440 are always there. Just think of the bedlam if they were!

Talk to a Senior Girl for two minutes and you will inevitably hear the names of Miss Friedlander and Mrs. Shull mentioned with great enthusiasm. "What would we do without them?" is a typical "description" of these

two dynamic personalities, the sponsors of Senior Girls. If you look in on their meeting again, you won't be able to find either of the sponsors. They are sitting among the other girls, speaking only to give words of sound advice, constructive criticism, or encouragement.

The Senior Girls arrange many social events of great importance at Hyde Park, such as the Tag Day, Freshie Frolic, Mother's Day Tea, and their own private party.

You probably noticed the big butterflies held together with a beautifully decorated can, in the hands of one of these flitting femmes. How could you help it? She was holding the can under your nose with one hand, and reaching for your wallet with the other. Just remember that the money you gave was for a good cause—those "heaven-scent" Senior Girls.

The Freshies Frolic is a party given each semester by Senior Girls to welcome the freshie girls to Hyde Park. Only freshie and senior girls are allowed to attend. In order to choose one girl to be "freshie queen", each 1B division sends one candidate to the Frolic and a group of senior girls acts as judge. The queen re-

ceives a gift—such as a compact or identification bracelet—, everybody gets refreshments and entertainment, and a good time is had by all.

The Mother's Day Tea is one of the highlights of Hyde Park's "social season." There is an exciting flurry of preparations, and then comes the afternoon when the girls can show off their mothers—and vice versa.

And when all the other parties are over, the Senior Girls give a party for themselves. They think they deserve it. Don't you?

All of these events come off so smoothly and easily that few people realize how much preparation lies behind them. Take the Freshie Frolic of March 14, 1947. Here is a list of all the committees which worked to make the Frolic a success: entertainment; queen; stamping—every freshie is stamped "Property of the Board of Education" (it's so true!); ticket; invitation; door; decoration; bow—the verdant freshies get green ones, the seniors blue ones; property; publicity; refreshment; gift; and clean-up.

The Senior Girls have fun now and gather valuable lessons for the future.

GIRLS CHORUS

"Oh river so blue, tra la, tra la,
Of glorious hue, tra la, tra la—"

Well, my gracious, where is that heavenly music coming from?

Right! You guessed it! That is the Girls Chorus.

The Girls Chorus is that wonderful organization in which feminine voices are blended into one thrilling chorus. You see, every day the girls get together and, under the excellent leadership of Miss Charlotte McCarthy, they have become a widely recognized group of musicians.

These girls are "plenty good." They sing anything from Johnny Mercer's latest song to the Prayer From Hansel and Gretel.

The Girls Chorus, dressed in its new blue uniforms sing at many assemblies, at the Music Festival and on various other occasions. It is a welcome addition to any program.

G.A.A.

It would be a lot more appropriate to call the G.A.A. the Glamorous American Athletes than it is to call it the Girls Athletic Association, for the members of the G.A.A. really demonstrate the glamorous side of American sports.

The members of this well-known organization meet often to plan their many activities. Do you like to play volleyball? Want to be a female Babe Ruth? Do you want to grow up to be stiff competition for Babe Zaharias? Do you want to be another Pauline Betz (with a chance to play with another Bob Falkenburg)? Are you training for a crack at the Grand National? Or do you think that your hips might—ah, hm, ahem, not be unfavorably affected by some good exercise? Well, just name the sport, and the G.A.A. is bound to have some activity planned in it.

A girl belonging to the G.A.A. can be assured of many wonderful hours of sports and fun each week.

HEALTH AND WALK IN THE PARK

How can you live on twenty-four hours a day when you have thirty-six hours of homework? Why do you get pimples from eating candy? Well, the answers to these questions are just some of the things you will learn in Hyde Park's health classes, which are part of the gym program. The girls learn how to stay young; how to sit, stand, and walk correctly; and how to develop a happy disposition.

As part of the gym program, all of the girls' gym classes, under the leadership of their teachers, go for walks through Jackson Park once each week—with happy voices, sprightly steps, and, in winter, red noses. Oh, yes it is tough in the winter; but who can deny that walking through a park on a warm spring day is the most wonderful experience in the world? And the walks help Hyde Park to build healthy girls.

LIFE SAVING AND SWIMMERS CLUB

Attention!

All future Esther Williams's apply now for membership in the Hyde Park Swimmers Club, which meets on the third Wednesday of every month. Under the fine instruction of Miss Marshall, you will be taught much about the many types of swimming strokes. Diving is also taken up, and this will be profitable for you—and fun—even if you don't intend to become an Olympic champion. After all, it would be nice to impress—favorably, that is—those handsome life-guards next summer.

One step farther is the Life Saving Club. Do you think any lives need saving? Or are you a cynic? In any case, you can gain much valuable experience and knowledge by attending life saving classes regularly. Proper life saving techniques are practised and mastered under the expert supervision of Miss Marshall.

HORSE-BACK-RIDING

HORSEBACK RIDING

Are you looking for something radically different in the way of transportation? Are you tired of those darn old smooth-riding busses and streetcars? Are you tired of sitting? Tired of lying in bed comfortably? Tired of walking normally? Are you interested in acquiring blisters in strange places? Or are you looking for good fun and good exercise? Then join the horseback riding classes, which are sponsored by the G.A.A., and you will experience all of these interesting things.

The horseback riding classes meet once each week, on Wednesday afternoon. There are separate classes for beginners, those who manage to stick to the saddle, and experienced riders. During inclement weather, the girls ride inside, but when it gets nice out—and when the girls are able to handle their horses—everyone rides outside.

Come and join!

OFFICE PRACTICE

When you enter Room 242 get ready for a shock. It is like no other room in Hyde Park. Students sit behind regular office desks, which bear signs such as "Stock Control", and work busily on various charts and machines. Then a "receptionist" greets you—and you know that you are in the office practice room.

The office practice classes are divided into four departments: the legal department, in which the students learn to copy legal work, operate mimeograph machines, and cut stencils; the statistics department; the dictaphone department; and the filing department.

The students run the office practice classes—within limits. An office manager and an assistant office manager see to it that the office is run in a business-like manner and act as receptionists. Four other managers—one for each department—keep records of the students' work, which they periodically submit to Mrs. Brown, the "big boss."

Outside of an office, there is no better place than Room 242 to acquire office practice.

Girls are taught how to plan and live on a budget. The latter is by far the harder lesson.

Twice a week a home nurse visits each class, and gives the girls tips on the care of the sick, the handling of children, and the maintenance of a healthy home.

AWARDS

All of the boys who devote most of their free time to school athletics deserve commendation, but some clearly excel. It is for the latter that awards, in the form of trophies, were devised.

The "Kriloff Trophy" was presented to Ted Singer of the junior basketball team.

The "Most Valuable" trophy went to Herb Rosen, co-captain of the football team. Dan Riker was the outstanding candidate in '46 for another football trophy, the "Captain Dave Wiedeman Award."

The coveted "Coaches Award", for the outstanding graduating athlete, was given Sherwin Weiss in January.

FOOTBALL

The Aitchpe warriors opened their '46 season on the warpath by scalping the Englewood gridmen 26 to 6. Lead by co-captains Kinsey and Rosen, the Indians then invaded Beloit, Wisconsin and, through their unfamiliarity with the team and field, they absorbed a 20 to 0 defeat.

The Tribe opened their South Section competition by succumbing to a surprisingly inspired Vocational eleven. The Morgan Park Mustangs nosed out the Blue and White 10 to 7. The Hyde Park comet flashed briefly through the sky of victory, by merit of our 13 to 0 win over Harper. The Hirsch Huskies were the next on the gridders' list for conquest, but they conquered 13 to 0. The Tars of South Shore provided nothing more than a scrimmage for the Stony Islanders. The Boilermakers of Bowen were the next Aitchpe tilt and the final section game of the season. The Tribemen put up a gallant fight, but were unable to repeat last year's victory over Bowen, losing 13 to 6.

On Thanksgiving Day the gridders journeyed to Quincy, Illinois, to give battle to the Blue Devils of Quincy High. The Tribemen were halted twice within Quincy's 10-yard line, then the Blue Devil pile driver took over to defeat the Blue and Whiters 20 to 6.

JUNIOR BASKETBALL

There is no doubt about it: the fans who saw the junior basketball team of 1946-7 on the hardwood courts saw the best team Hyde Park ever had.

Mel Potash, Mike Greig, Don Fairman, Gordie Taylor, Ted Singer, and Eddie Berman fought hard to gain the section title. The next goal was the city league crown. They had no trouble in the first two play-off games. Then Marshall: just when the Indians were pulling into the lead, Fairman sprained his ankle. We offer no excuse for the loss: none is needed.

SENIOR BASKETBALL

"We shall spend this year," said coach Vic Mann, "building for the future." Maybe this best expressed the reason for the poor showing of the Hyde Park Heavies.

After winning the league opener from Parker, the boys, led by Captain Bob Green and forward Bob Dadigan, went into a slump.

However, they are constantly improving; and with the return of "Swede" Nelson, Skip Meagher, Joe Wolinsky, Jack Hunsinger, George Goritz, and Bob Jacobs, Aitchpe's giants anticipate a really good season.

JUNIOR TRACK

Year after year, Hyde Park has come to expect an outstanding junior track squad, and this year is no exception. Captained by Ken Kuenster and Terry Ellis, the squad has come through the major part of a rigid practice schedule without suffering a major setback. With "Mac" McClinton, who has already tied a dash record, Terry Ellis, who threatens to boost the shot put record, DeMar, Kern, Jacobsen, Hefter, Alexander, Tooker, Herwitz, and a host of others, the juniors have an excellent track team this year.

SENIOR TRACK

Captained by Howie Engel and Shellie Rooth, the senior cindermen have most of the talent that carried them so close to a city championship last June, plus Dick Goins and Jack Hunsinger. Veterans, such as Don Young, Alan Goldfarb, Harold Donko, Jerry Hill, Jay Levinson, Art Friedman, Pat Allen, Dave Marcus, and Marv Bloom, have knit themselves, along with the newcomers, into a team so strong that it has had trouble finding any kind of competition throughout the practice season.

TENNIS

For the fourth consecutive year, the Blue and White tennis team has ranked first in the South Section. Going undefeated into the finals last year, the netmen were beaten by powerful Sullivan, who eked out a three to two victory, handing our racqueteers a second place in city competition. In the past, Hyde Park tennis teams have won many section, city, and state championships.

This year Aitchpe rooters can look forward to another successful season on the clay courts. As the Annual goes to press, the call for new tennis hopefuls is going out. The returning netmen, led by Fairman and Primack, and new hopefuls, such as Sobel, Axelrad, and Fisher, should better our record of last year, and perhaps even gain state honors.

BASEBALL

Although it is really still too early to tell, coach "Heinie" Schultz is confident that the outcome of this year's baseball season will be far more favorable than those of the previous two years have been.

Starting with a nucleus of captain Vern Kuenster and such veterans as Tom Allen, Skippy Meagher, Larry Dellefield, Swede Nelson, and Lefty Leonard, he hopes to find enough new talent to better the fourth place standing of last year.

The main weakness seems to lie on the mound, with none of last year's major staff returning. However, there is a possibility that Kuenster will move in from center field, and with two or three dependable pitchers, there is no reason why "Heinie's" ambitions cannot be realized.

SWIMMING

Before a small crowd Hyde Park's junior swim squad started off on the right foot by ripping into Parker's swimmers and scoring an impressive 34 to 23 victory. But our juniors suffered a let-down and were upset in their second meet by the powerful Fenger team, which beat us with the same 34 to 23 score. This reversal seems to mean little to the confident juniors, who are improving rapidly and show no fear of any swim team which they might meet.

Hyde Park's senior swim squad made a slow start, which included a tough loss to the strong Fenger team. However, it shook off whatever was ailing it and came through to beat Parker 34 to 33. The spirited seniors are on the upswing and seem to be heading for a successful season. It looks as though our swimming teams won't be "shower clubs" after all.

COACHES

Mr. Lloyd E. Rohrke, Mr. Henry H. Schultz, Mr. Julius Lakin, Mr. Victor Mann, Mr. Elliott E. Hasan.

COACHES

What constitutes a good athletic team? Some people say a successful player combination; others regard teamwork as the vital cog in the wheel of success. True, both of these factors enter into the final results; but, as certainly as "the proof of the pudding is the eating," the proof of the coaching is the player's skill.

When a coach takes over the responsibility of instructing and guiding an aggregation of boys, he also takes over the responsibility for the welfare of his players, the decision of what men are suited best to play, and, finally, the Herculean weight of criticism. Everybody has something to gripe about: "if" "Has" had done this, "if" Man had let him pitch, "if" "Heinie" would let him pitch. "If" is very important to these die-hards who always have objections.

Some boys, who may possess athletic ability, are afraid to come out for a sport because they believe they will not be given a chance. Of course, the coach gives preference to his returning players; but the training program is planned so that it gives everybody a chance to prove his ability.

Boys who have come in contact with the coaches as gym teachers view these men as "slave-drivers," who are there just to make their charges "sweat their brains out." This is an erroneous idea. They are swell guys, who have the double responsibility of training winning teams and winning citizens. We propose a hearty "Rick-Tick" for OUR BOYS, THE COACHES!

HYDE PARK

R. O. T. C.

Although World War II is not yet officially over, the American army has returned to its peacetime status. There are a few exceptions, such as the handful of drafted men who are still in khaki, or a few of the laws which governed the wartime army. But the greater part of the army has returned to its usual occupations of trying to remain on the alert, improving its technique, and training a sufficiently large and available reserve.

Our R.O.T.C. Battalion, constituting an infinitesimal part of the training facilities of the army, has also been changed to the peacetime training program. Old equipment has been recalled, a larger variety and more modern equipment has been issued to replace it, and a larger instructional staff has been assigned.

Other changes have also been made. Lectures are not quite as prosaic, for more reference material has become available. New lecture subjects have been added, and obsolete ones withdrawn, while the method of presentation has been improved.

The cadets who finish this course may, if they so choose, join the Enlisted Reserve Corps with a rank commensurate to their training, and some may receive commissions in the National Guard. If they go on to college, they will still have an advantage over those who did not take R.O.T.C., because all land-grant colleges are required by law to make R.O.T.C. a required subject, unless the student has had an equivalent in military training before entering college.

LT. O'KEEFE

A man of much experience, both as a soldier and as an educator, is Lt. Maurice O'Keefe, our new Assistant Professor of Military Science and Tactics. Formerly this post was filled part-time, with one officer rotating among five schools; but, now that a sufficient number of officers has become available, every school has its own supervisor. LT. O'Keefe served overseas as a battalion intelligence officer and has instructed the R.O. unit at the U. of Michigan.

LIEUTENANT MAURICE O'KEEFE

SERGEANT OSCAR HARTMAN

SGT. HARTMAN

With the R.O.'s conversion to a peacetime program, Sgt. Oscar F. Hartman, our military instructor, has many new responsibilities. He has the responsibility for a much larger quantity of equipment, because the army, stressing training in the technological side of warfare, has sent the R.O. such equipment as rocket launchers and automatic rifles. He also has to give more lectures. His added efforts already show excellent results.

REGIMENTAL OFFICERS

Our battalion is actually led by the Cdt. Lt. Cols. with the advice and aid of Lt. O'Keefe and Sgt. Hartman. Lt. Col. Edward Rosen and Lt. Col. Frank Melchoir led the unit through the past year, during the Fall and Spring semesters, respectively. Their aides, Maj. Stanley Golder and Maj. David Pomper had to do a large share of the work. Although it may seem that these officers had no work to do, they were swamped with administrative work, such as making out reports on everything from fire-drills to the state of training of their units. Some of the things these officers and their staffs did were to prepare for federal inspection, the parade downtown, make out training schedules, assign and give lectures, order training movies, issue equipment, keep records on each cadet, and a myriad of other details.

DRUM AND BUGLE CORPS

The inspired playing of our now well-established drum and bugle corps has helped the school on many occasions. The members of this corps have spent much of their free time playing at football games, various parades —including the Armistice Day, Memorial Day, and downtown parades—and for many assemblies.

The corps was started two years ago by a group of about ten cadets who decided that the R.O. needed such a corps to replace the Band. These intrepid cadets came at 7 o'clock every morning so that they could practice together, using their own instruments.

Since those early days, the corps has acquired its own equipment, which was financed through assemblies, shows, and a donation from the boys' gym.

Anyone who has lately listened to the corps play, can see that the foresight and self-confidence of the early "pioneers" paid off.

PICKED PLATOON

In previous semesters, each R.O.T.C. unit in the city chose its best cadets, assembled them in a special platoon, which it made its picked platoon. These platoons met in one central location once annually when the competition was judged by a board of army officers.

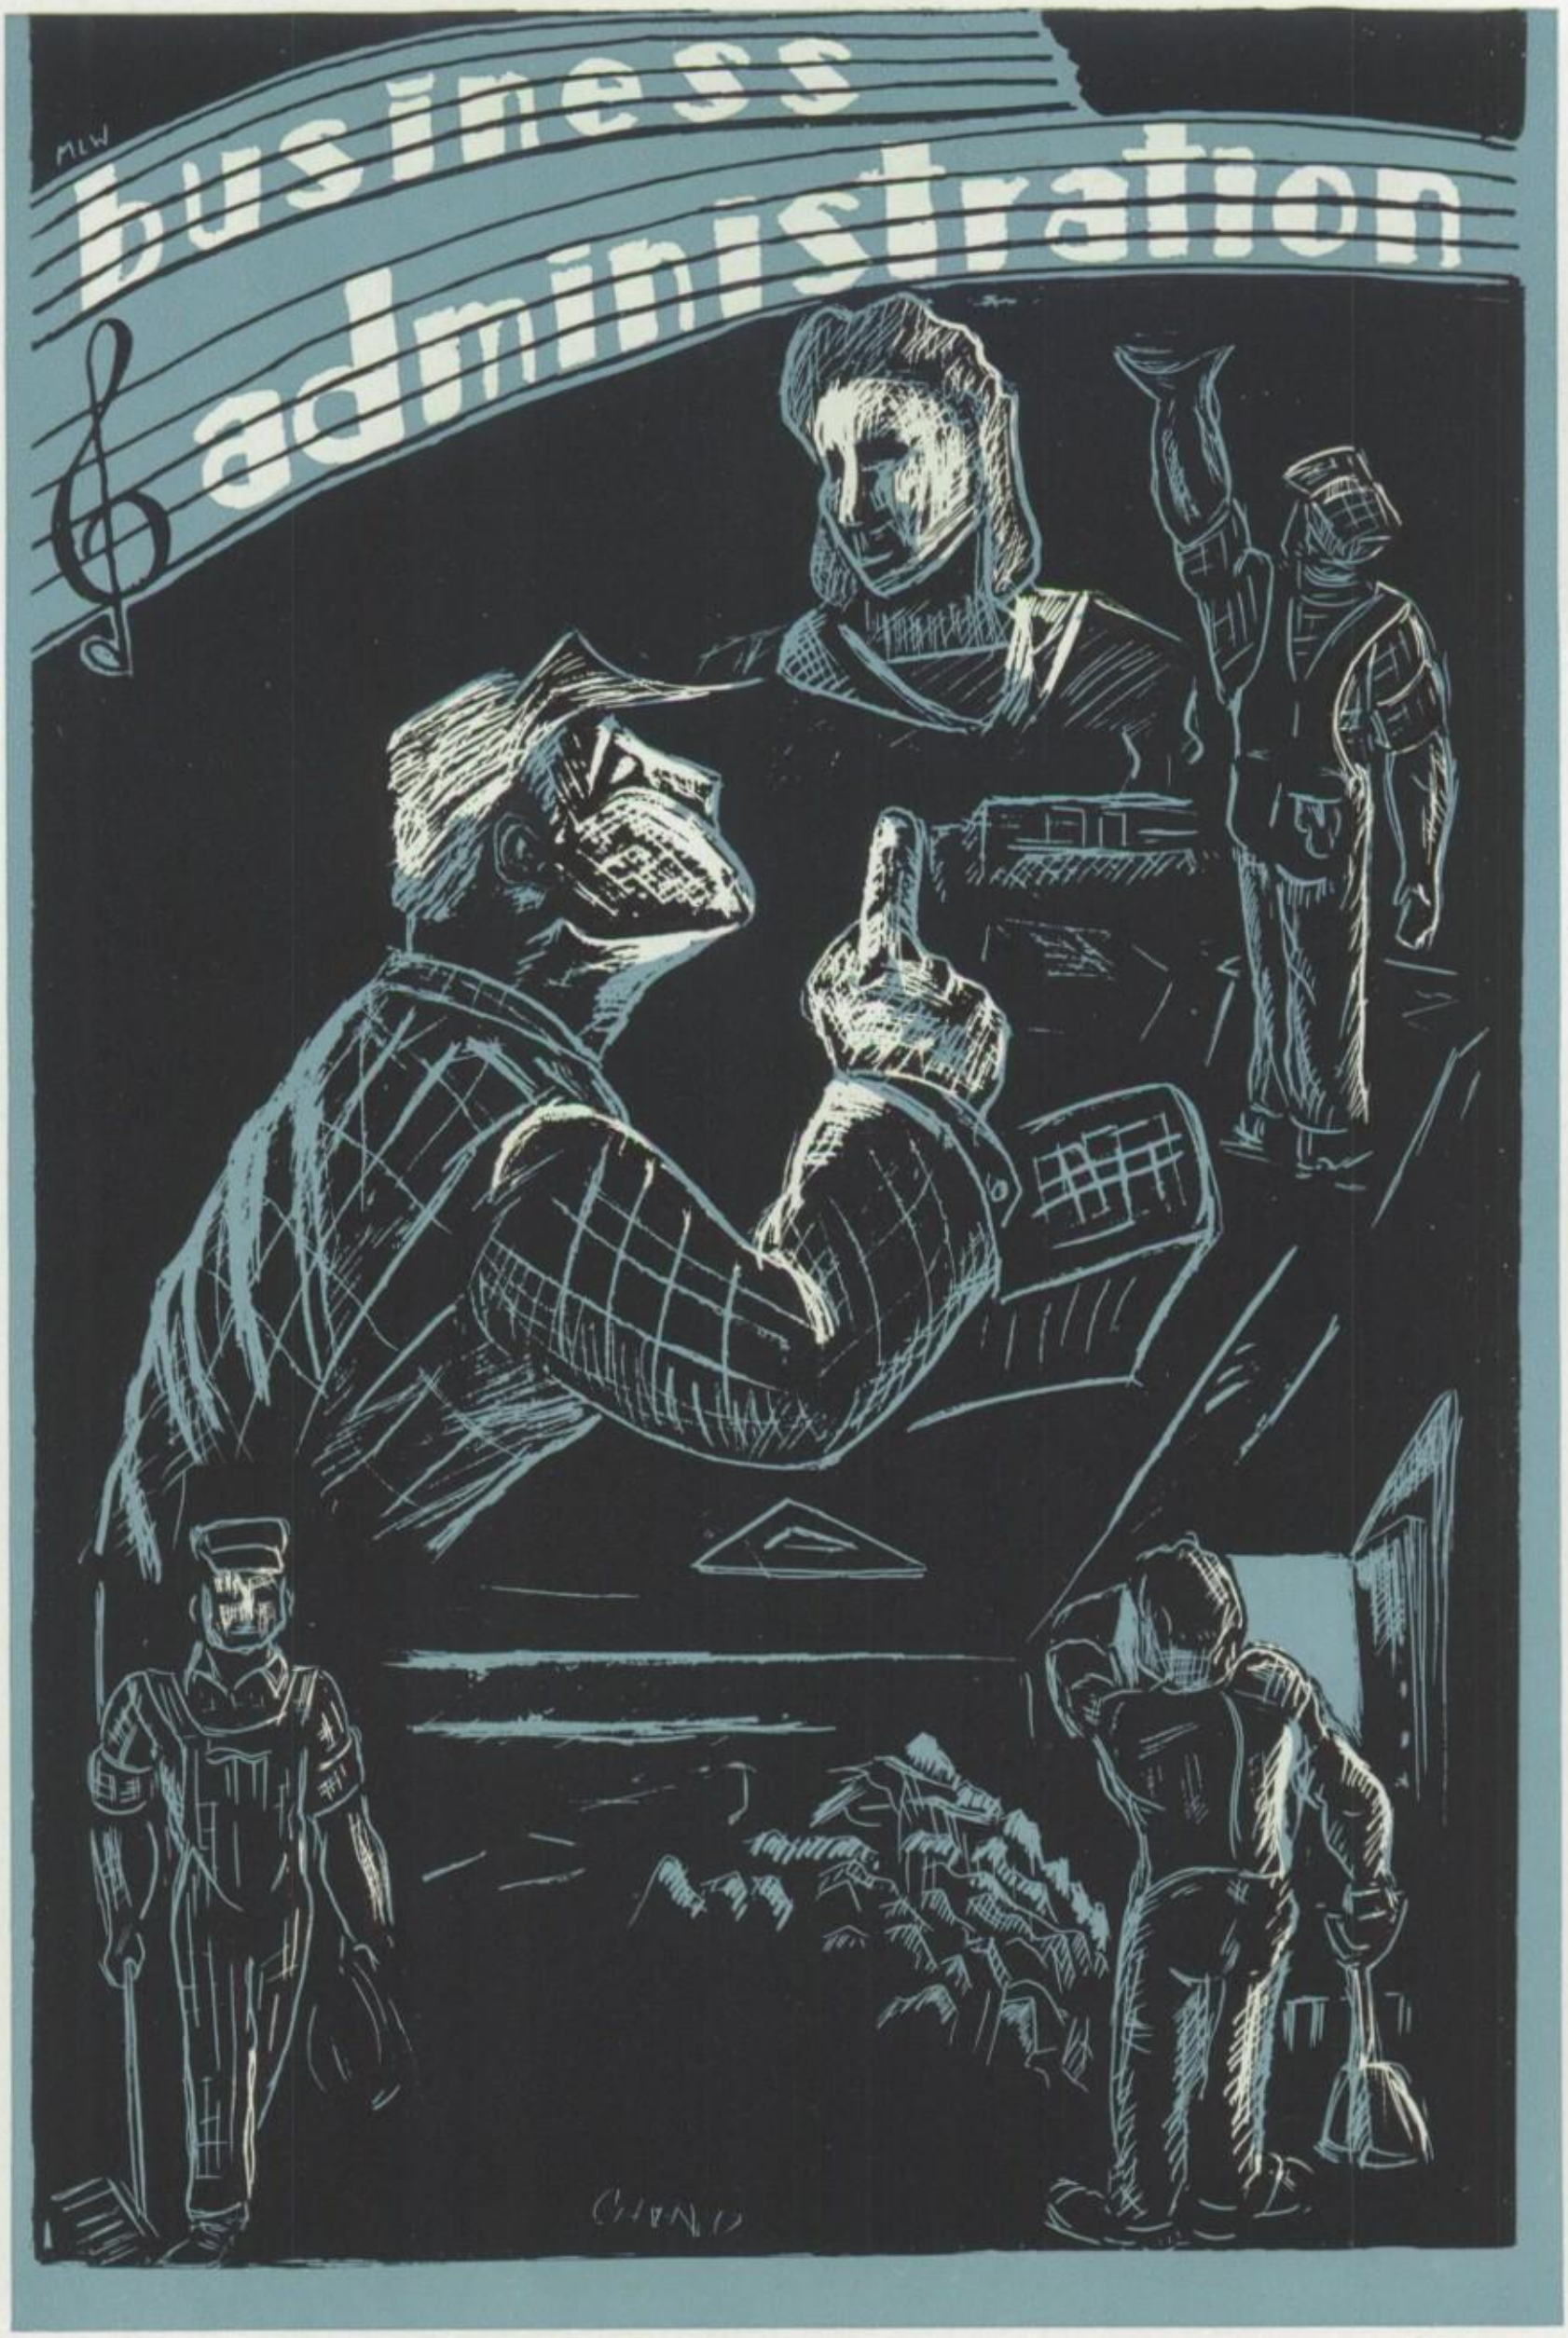
This year the system was revised. Now each school, with the aid of its supervising officer, picked its best standard platoon which competed with the platoons from other schools in the district, the city-wide winner being the Tilden unit.

END OF SECTION

So now we leave the R.O.' for another year. Yes, we leave, but we won't forget, because the R.O.T.C. has unconsciously become ingrained in our minds. We are so used to seeing them act as guards at the "doings" in Loomis Hall and at the Social Center Dances, or running down the hall during a fire drill. Even though we have been forced to yield the halls to a platoon of cadets going outside to "enjoy" the fresh air (with a temperature of 40 degrees F. outside,) we have a soft spot in our hearts for the cadets, and wish them the best of luck during the next year.

Bright and Shining.

It can happen to you.



business
administration

Business Administration

The remarkable efficiency shown by the business administrative department of our school, under Mr. Charles Clarke, has been demonstrated over and over. Do you remember the story of the damaged boilers last year? Our remarkable engineering staff has put up with these boilers for many years. Considering the many cold days that descended upon us, it can easily be said that Mr. Clarke, Mr. Kearns, and their assistants did a skillful job in maintaining the building at a comfortable temperature and still keeping a margin of safety, even with the defective boilers.

Our janitors certainly deserve a vote of thanks. Just clearing the halls of the scraps of paper dropped by students during an average day, and keeping all rest rooms clean and supplied with soap and towels are tedious tasks. Nevertheless, the members of this force were always there and cheerful.

There is a lot more room inside of Hyde Park, than the halls, and we certainly didn't restrict our paper-dropping to the halls, so the janitors also had to sweep in between the desks, tables, and other classroom paraphernalia. As if this weren't enough, they even remembered each teacher's idiosyncracies and took note of them.

Do you remember when you broke the key in the lock during the semester? Where would you have been if you couldn't have gone to the carpenter to get a duplicate made? Who came to fix that loose desk in your typing class that kept you from making less than five mistakes in your speed tests? Why, the carpenter, of course! It is easy to see that he is an important man around school. Besides these tasks of maintenance, there are also tasks of making changes and additions in the school facilities that fall into the carpenter's domain.

So remember the work of the maintenance department. Its members have, and will continue to do much work to make you more comfortable in school.

LUNCH ROOM

Could you imagine what would happen if the lunchroom staff failed to show up for work some day? The whole school would not be able to function properly. Teachers would not be able to teach on empty stomachs. And their pupils certainly would not be able to concentrate without having eaten some of the delicious food served by the lunchroom.

Mrs. Cassell and her efficient staff deserve a lot of credit for the efficient job they perform in filling Hyde Park's empty stomachs. It is no cinch to supply nearly a thousand people with victuals every forty minutes. Then, after the once-hungry hordes have left, the clean-up squad takes over to clean up the mountains of dirty dishes, waste paper, pop bottles, and other articles signifying that everybody had a good lunch.

Satisfied Customers.

ACKNOWLEDGEMENTS

The Annual staff wishes to thank Mr. Gonnelly and Mr. Specht for their co-operation; the teachers in our corridor for bearing with our loud talking, banging of doors, and similar crimes; and the teachers who granted us favors when we needed work completed in a hurry.

For their patience and understanding in dealing with us, amateurs, we wish to thank Mr. Oliver D. Rogers, our printer; Mr. Arthur Hauschner, our photographer; and Mr. James V. Oldham, of Jahn and Ollier.

We also wish to thank Mr. Zehner, who took care of the finances; Mrs. Nichols, who superintended the art work; the Advanced Art classes for their art work; and the Annual Agents for collecting the money.

Above all, we thank Miss Mary L. Leitch, our sponsor, our guide, and our friend, who made this Annual possible.
